ADDITIVE MANUFACTURING

An opportunity to innovate in industrial applications

22nd June 2016 – 09h00

Opificio Golinelli - Via Paolo Nanni Costa 14, 40133 Bologna – Italy

In this event we will discuss the possibility to produce **net-shape metal mechanical components**, through integration of additive manufacturing and machining, with a focus on applications for **Automotive** and **Motorsport** sectors.

Experts from industry and academia will debate, through the analysis of case studies in 2 round tables, key issues in terms of **design, manufacturing, quality and process safety**.

PRELIMINARY PROGRAMME

09h00-09h20 – Participant registration

09h20-09h45 – Welcome messages

09h45-11h15 – ROUND TABLE 1

Title: *“Development of net-shape products – Integrating AM and traditional machining”*

11h15-11h30 – Coffee Break

11h30-13h00 – ROUND TABLE 2

Title: *“Quality & process safety – Key factors for Additive Manufacturing”*

13h00-14h00 – Networking Buffet

14h00-16h00 – BtoB meeting (on demand)

With the participation of:

David PISTORIO – **Ferrari**
Pierluigi TOZZI – **GE Oil & Gas**
Stefano MUCELLI – **Meccanica GN**
Andrea SCANAVINI – **TEC Eurolab**
Gabriel MARIN – **Air Liquide**
Vito CHINELLATO – **EOS**
Stéphane ABED – **Poly-Shape**

Prof. Luca IULIANO – **Politecnico di Torino**
Prof. Andrea GATTO – **Università di Mo-RE**
Mauro VARETTI – **Add. Manuf. Consultant**
Valentina CAMPAGIORN – **Warrant Innov. Lab**
Giovanni CAMORALI – **Oportechncs**
Arnaud François-Xavier MARTIN – **Poly-Shape**
Fiorenzo BELLELLI – **Warrant Group**

The event is organised by **Warrant Group**, **Poly-Shape MGN Motorsport** and **Oportechncs**, in collaboration with **Air Liquide** and **EOS**, under the patronage of **AITA – Associazione Italiana Tecnologie Additive**.

Official language is Italian and simultaneous translation to English is available (with headphones)

Participation is free of charge

The all event will be filmed
